UNIVERSIDAD DE LAS FUERZAS ARMADAS ESPE

NRC: 14539
Team 6 : Code masters
Leader : Erick Tufiño
Members : Yostin Sisalema, Damian Toscano , Erick Tufiño
Inspector: Erick Tufiño

Inspection to:
Team 3 : JEZHE Software Engineering Association
**Project:** Academy Grades System

Requirements

All the requirements are well written and are in accordance with the description, they also follow the IEEE 830 model.
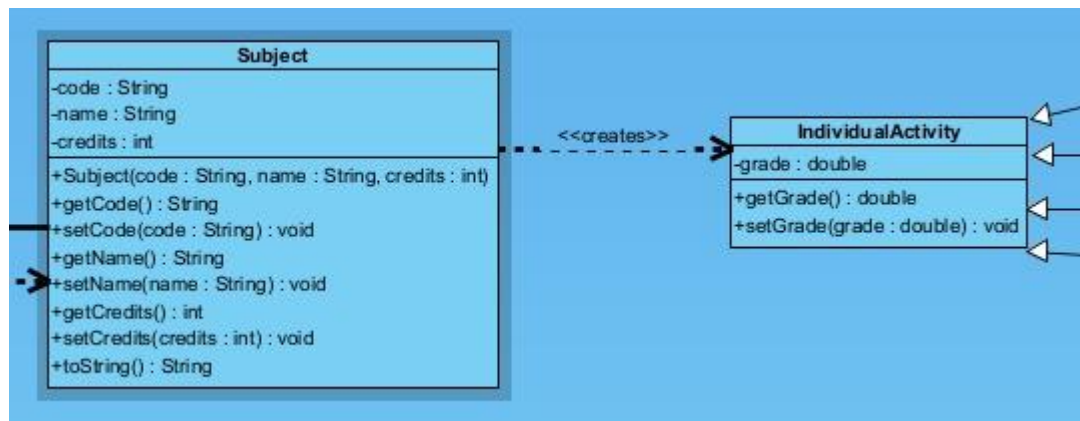

Modeling

Use Case

In the data student case, no verb is used, the rest of the cases agree with the requirements and are written correctly
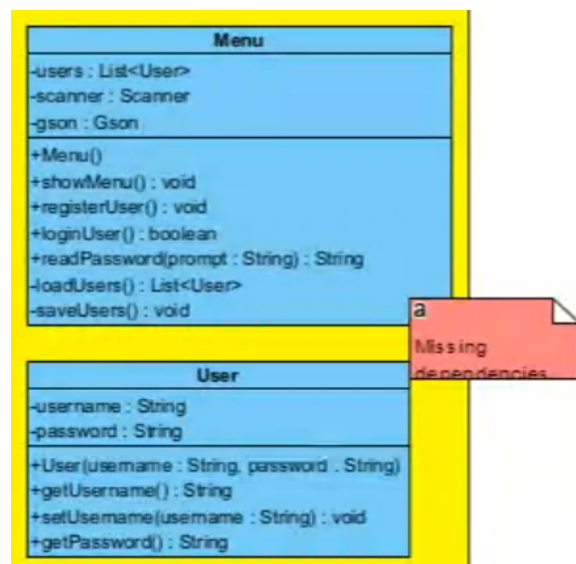

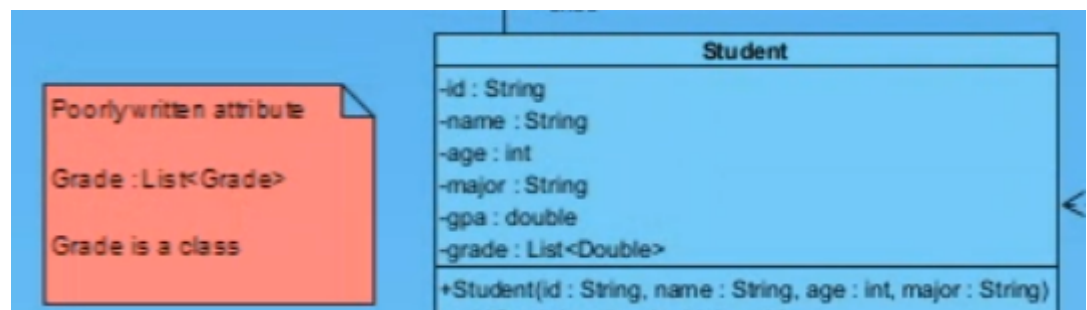

Class Diagram

Revisions:

We can see that here it is not subject dependency with Individual Activity has no relation to the subject.

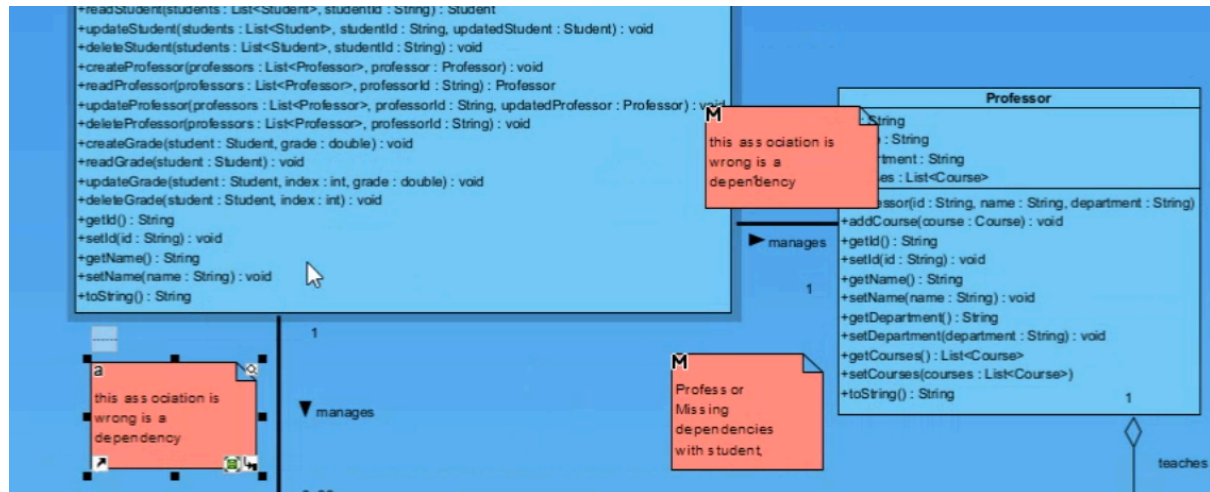

Missing dependencies in the class menu a user

It may be wrongly written in attribute 6 in the Student class. A recommended way to write it would be : Grade : List <Grade>.
Grade is a class
The attributes are bad written.

This association is wrongly used, it has to be a dependency
The class teacher is missing dependencies with the class student.
The association manages is incorrect, it is a dependency
